MEMORANDUM OF UNDERSTANDING BETWEEN
TWIN RIVERS UNIFIED SCHOOL DISTRICT AND
TWIN RIVERS UNITED EDUCATORS
2020-2021
IN A COVID-19 ENVIRONMENT
Tentative Agreement 8/3/2020

This Memorandum of Understanding (MOU) between the Twin Rivers Unified School District and the Twin Rivers United Educators sets forth the parties’ agreed upon negotiated effects of District decisions regarding the 2020-2021 academic year in a COVID-19 environment. This MOU expires on June 30, 2021, but may be extended by mutual written agreement. Upon expiration of this MOU, all terms and conditions in the CBA shall be returned to the 2019-2020 status, prior to enacting this agreement, unless otherwise agreed to by the parties. This is a non-precedent setting agreement

INTRODUCTION

The Parties have a shared commitment in providing an educational program that supports the needs of all students while ensuring a safe learning environment for students and staff by following the guidelines established by both state and county health departments.

The District and certificated employees shall adhere to the COVID guidelines issued by the Centers for Disease Control and Prevention ("CDC"), California Department of Public Health ("CDPH"), California Department of Education ("CDE"), the California Department of Industrial Relations Division of Occupational Safety and Health (Cal/OSHA), the Sacramento County, and the Sacramento County Office of Education. The parties agree to negotiate the impacts and effects of any revisions to those guidelines.

The Parties reserve the right to present additional proposals and other items may still need to presented and negotiated.

Continued education of our students during the 2020-2021 year will require flexibility given the impact of COVID-19 and the possible need to fluctuate between instructional models of instruction (virtual and in-person). To support this, a three phase instructional delivery model has been developed with input being gathered from the association, educators, administrators, and parents. The instructional model put into practice at individual sites and/or district-wide shall be triggered based on direction and guidance from the State of California, Sacramento County Department of Health and the Sacramento County Office of Education. With guidance from the Sacramento County Department of Health and the Sacramento County Office of Education, the 2020-2021 school year shall be reopened under the appropriate model given the guidance provided. The District shall immediately notify the Association if it becomes necessary to transition to a different phase.

Pay/Benefits:

While working under any of the three phases, bargaining unit members shall continue to receive their compensation and benefits owed them pursuant to the collective bargaining agreement and applicable laws and policies.
**Paid Leave:**

Unit members who are exposed or test positive for coronavirus within 14 days after a day that the employee performed in-person services, and are required to be quarantined and provide medical documentation shall be placed on paid leave, which shall not be deducted from the member’s sick, personal, or extended illness leave.

**Hot Spots**

Bargaining unit members, upon request, shall be issued hot spots which will be returned to the District.

Elementary unit members shall have input into cohort creation (for phase 1 and phase 2) with principals making final decision.

**Definitions:**

The instructional models described below include the following language and are defined as:

1. Synchronous learning refers to a learning event in which a group of students are engaging in learning at the same time. This may be in person or virtually. Learning happens in real time.

2. Asynchronous learning is a general term used to describe forms of education, instruction, and learning that do not occur in the same place or at the same time. The term is most commonly applied to various forms of digital and online learning in which students learn from instruction—such as prerecorded video lessons or game-based learning tasks that students complete on their own—that is not being delivered in person or in real time. Yet asynchronous learning may also encompass a wide variety of instructional interactions, including email exchanges between teachers, and online discussion boards.

**INSTRUCTIONAL MODEL PHASES**

**PHASE I: VIRTUAL LEARNING MODEL**

This model consists of all instruction occurring through remote/distant methods if a school site(s) or the entire district are under stay-at-home orders.

This phase is triggered when, in consultation with the Sacramento County Office of Education, the Sacramento County Department of Public Health, and California Department of Education, the District determines that a stay at home order is necessary for student safety.

Requests for such accommodations will be considered on a case-by-case basis and only with supporting medical documentation from a medical provider.
